PROFESSIONAL SUMMARY

Full Stack .NET Developer with 6+ years of experience building scalable enterprise applications. I specialize in clean architecture, performance optimization, and AI-accelerated cloud-native solutions using .NET Core, C#, Angular, Azure, and AWS. My background spans the banking, insurance, and resource management domains, where I build end-to-end systems utilizing microservices, CI/CD pipelines, and advanced AI IDE integrations to solve complex technical challenges efficiently.

PROFESSIONAL EXPERIENCE

Lead Software Engineer

Bounteous | Gurugram, India (Remote) | 07/2025 - Present

- NAB India (Global Innovation Hub):** Working as a Full Stack .NET/Vue.js Developer in the RAGE team (IRRBB), building interest rate risk management solutions. Extensively utilizing the **Cursor AI IDE** with **GPT, Claude (Sonnet/Opus), and Grok** models to accelerate development.
- AON Singapore (Insurance Platform):** Built microservices and micro-frontend architectures with PostgreSQL. Leveraged **GitHub Copilot** with **Claude Sonnet 4.6** and **GPT** models for rapid feature delivery and bug resolution in the Data Lab module.
- AI Innovation:** Won "Best Performing Squad" at the 2-day NAB AI Game hackathon, rapidly prototyping solutions to test the absolute limits of AI-assisted coding in a high-pressure environment.
- Recognition:** Received the IGNITE Spotlight Award (Above & Beyond) for taking ownership of tasks, proactively identifying edge cases, and supporting the team.

Senior Full Stack Developer

Accenture | Noida, India | 04/2024 - 07/2025

- Solution Planner (Resource Management):** Built a responsive Angular frontend reducing load times by 35%, and developed ASP.NET Core RESTful APIs cutting latency by 20%.
- Integrated SQL Server for real-time reporting, optimizing queries to run 30% faster. Set up Role-Based Access Control (RBAC) to maintain strict data security compliance.
- Utilized **GitHub Copilot** and **GPT models** within VS Code to streamline coding workflows, and conducted rigorous code reviews to reduce production issues by 30%.

Digital Specialist Engineer

Infosys | Pune, India | 09/2020 - 04/2024

- TKE China Sales Configurator:** Developed independent CPQ modules, streamlining the elevator sales workflow for ThyssenKrupp.
- Handled rigorous production support to maintain 99.9% system uptime, troubleshooting issues within tight SLAs, while designing optimized backend C# APIs.
- Completed internal AI training courses and actively leveraged **ChatGPT** to accelerate problem-solving, learn new concepts, and adopt development best practices.

.NET Full Stack Trainee

Infosys | Mysore, India | 09/2020 - 12/2020

- Completed intensive training in the Microsoft technology stack and built a hotel booking management system using .NET Core, Angular, and SQL Server, applying competitive programming skills to optimize logic.

VOLUNTEERING & COMMUNITY SERVICE

Volunteer

Nature's Buddy NGO | 06/2019 - Present

- Organize weekend cleanup drives around the city to maintain public spaces and lead volunteer teams to raise awareness about environmental sustainability.
